SHE TELLS THEIR STORY.

Describes Her Husband as a Timid Man and a Bad Shot.

REPUBLIC SPECIAL. New York, July 31 .- With each day's developments it becomes clearer that Italy's King was shot down in pursuance of an anarchistic plot hatched by revolutionists in Paterson, N. J.

Evidence of this conspiracy to murder Humbert is accumulating. There is every prospect that the whole truth regarding the plot will soon be made known, for Italian detectives are now in Paterson and at work. One of these foreign secret service agents

was recognized in the streets there to-day. He has been employed before in special work by the Italian Consul General, but from what can be learned it is upon direct instructions from Rome that the present investigation is being prosecuted.

Ever since the uprising in Italy against the present Government began, a close watch has been kept upon the anarchists, not in Italy alone, but all over the world. Even the anarchist leaders in Paterson realize that they have been under constant surveillance.

Evidence is said to have been obtained that Bressl was formally chosen by the anarchist society to assassinate King Humbert, and that this selection was made immediately after Carboni Sperandio, who had been designated for this mission, committed

Mrs. Bressi was seen at her home, No 363 Clinton avenue, West Hoboken. She still refused to believe that her husband had fired the fatal shot.

She repeated this last sentence, with a gamut of variations, a hundred times. Bressi's Views on Government. She was sitting in her parlor in the poor

little home in West Hoboken, holding her daughter, Madaline, 18 months old, in her lap. When asked to tell her story, she "I came here from Chicago, I was looking for work, and found it in New York. For some time I worked as clerk in an of-

fice in Broadway. It was cheaper to live on this side of the river, and I boarded in West Hoboken with a Mrs. Blanche. "It was at her house that I met Gaetane Bressi. Mrs. Bressi was more communicative when asked about the views of society and government that were held by Gaetano. Gaetano was very fond of an easy life, and thought that the poor of every country, and of Italy, especially, were op-pressed. He spent most of his wages in get-

ting good things to eat and drink, and if d to he would not hesitate to spend \$4.99 for food and wine. I do not mean that he drank to excess or was a high liver. I only mean that he enjoyed the good things and was willing to sacrifice other things for them. He always took care of me and

"Gaetano hated the clergy. He was not a believer in religion, although reared in the Catholic Church. He was not a communicant and never attended service. He con-sidered the clergy as utterly useless, the burden and the enemy of the poor. He did not rail against the priests, as some do, but he despised them and looked upon them as the oppressors and consumers of the substance of the poor. This used to grieve me, because I believe in some little religion as a sort of necessity."

Mrs. Bressi was asked if Gaetano was in the habit of carrying a pistol, and how it happened that he was so accurate a shot. She said:

"Gaetano did not know anything about a pistol. He had an old revolver here, which ne carried to Italy with him, I suppose, as I have not been able to find it since he left, but he could not hit a tree with it. I have seen him try and fail." ots better at Kings," the reporter

WARNINGS HAD BEEN GIVEN.

A WOMAN IS UNDER ARREST.

Rome, July 31.-Bressi, assassin of King Humbert, was born in Prato in 1869. He was denounced in 1895 as a dangerous rioter and deported to the Island of Pantellaria. In 1896 he was liberated under the amnesty after the battle of Adowa, and in 1897 he went to the United States.

As the facts develop, it is seen that warnings of the crime had been given, and much indignation is felt at the failure of the police to take greater precautions. Signor Saracco questioned a number of witnesses of the crime. General Ponzio-Vaglia, King Humbert's premier aid-de-camp, testified that the shots were fired in such quick succession that he had no time to protect the

A Magistrate examined Bressl, who was sullen and defiant, replying: "I did not kill Humbert, I killed the King." He admitted that he was in Monza Park the previous day with a lady, and

angrily protested that what he had done was not a crime, but an act of justice. Among the persons arrested at Prato is a woman named Teresa Brugnoli, said to have been the mistress of the assassing

crazy. He could never have hit him if he had been in his right mind."
This sort of reasoning seemed perfectly satisfactory, and she appeared to have assured herself that Gaetano must have gone stark mad in order to improve his marks-

manship sufficiently to enable him to hit the

King at a few paces. When asked when and why her husband had gone to Italy, Mrs. Bressi said: "Gaetano salled on the Gascogne of the French Line May 17 for Havre. He went second-class and left here in as quiet a manner as possible. I do not believe that any one went to the steamer with him, and only one man, his barber, who happened to be going to Italy at the same time, accompanied him on the boat. He went to Italy to settle up the estate left him by his mother, who had died a few years before. His eldest brother, Lorenzo, is a prosperous shoe

merchant in Florence, Italy, and another

brother, Angelo, is a Captain of artillery in the Italian Army.
"He left here with only enough money to take him to the exposition and to his home in Italy, depending upon the money he would get there to bring him home. left me with enough money to take care of myself and the baby until his return. When he talked about the estate in Italy he said that he expected to get about \$2,000, and said it would be enough to set him up in business, Gaetano had been away from Italy

about five years." Mrs. Bressi said that she had had only one letter from Gaetano since his depart-ure. That was written from his old home in Prato, a suburb of Florence. From Havre and the Parls Exposition, she said, he had sent her papers and some books, The solitary letter was received the first week in July and had been destroyed. It related entirely, she said, to family affairs, the money, which he said was enough in amount to satisfy her, and the affairs of his brothers. Nothing was said as to his

Mrs. Bressi said that a later letter from Gaetano had been received by Julius Mag-nulfi, a friend of his, who lives in Weehawken. Mrs. Magnulfi, who was seen later in the day, said the letter was of no importance. It also was written from Pra-

The home of the Bressis is in the third floor of a flat house in West Hoboken, and is furnished in an extremely plain manner. A few prints adorn the wall and the tables and chairs are old and ramshackle. This morning a representative of the Italian Consul called to see Mrs. Bressi and, in company with Captain Walter S. Usher of the West Hoboken police, made a close search for papers and letters. Ac-cording to the Captain, nothing was found and Mrs. Bressl informed them that every scrap of paper that bore any writing of Gaetano on it had been destroyed long

The representative of the Consul said Captain Usher questioned Mrs. Bressi very closely, but did not succeed in getting any information of importance.

There was a picture of Gaetano Pressi in West Hoboken this morning, but it is not there now. It was the property of Rafaello Magnulfi, a warm friend of Bressi. visitors were so inquisitive about it that Mrs. Magnulfi said she had to get rid of it. "In the presence of three witnesses," she declared in dramatic tones, "I have destroyed it," and she made the motions of tearing something to pieces and scattering its particles to the four winds.

PATERSON HEADQUARTERS. Geneva, July 31.-In spite of all their ef-forts, the police have not succeeded in identifying the assassin of King Humbert as the man Bressl who was watched here 1898. The authorities are only able to affirm one thing, namely, that the Geneva anarchists, who are mostly Italians, are in regular cor-respondence with their countrymen in Paterson, N. J., from which point all orders-come. In view of the attitude of Luccheni when questioned about Bressi and the Paterson group, the police are assured that the crimes of recent years have been the sucessive phases of a plot. "In the name of the Italian Republican Federation of the United States I affirm most emphatically that there has been no plot in this country to kill King Humbert. We deplore the killing, but we question very much the goodness of King Humbert, whose record as regards labor has been a bad one. Many Italain laborers and lovers of liberty killed by his soldiers in the bread riots not long ago, without the slightest provoca tion. It may be that the man who has killed him vindicated the blood of the unfortunates who lost their lives on that occasion. Considerable testimony has already been taken, and the report of the board will be prepared by to-morrow night. Felix Stryckmans has been named as the official stenographer of the court.

The members of the court went to St John's Hospital this morning, where the testimony of the four injured men was taken. Corporal Balsley had but little to tell. He has no idea how the accident occurred. The members of the court remained with him but a short time, owing to the fact that the effort to talk proved very painful to him. Commissary and Quartermaster Rupert talked freely. He is unable to tell whether the accident was the result of some person throwing a cigarette into the pile of powder on the ground, or whether the powder on the ground was ignited by some one stepping upon it. Rupert says he was standing in front of the cannon, catching the stream of powder that was running out of it, in his hand, when he saw a flash from the powder on the ground. Before he could move, the pow-der in his hands was ignited and the flash from this, he thinks, ignited the charge in the cannon The other persons injured, Charles Sharp

REPUBLIC SPECIAL.

Boston, July 31.—One of the cleverest of confidence schemes was recently worked successfully on all the large railways in the United States. Early in June about every general passenger agent in Boston, New York, Chicago, St. Louis and all the large cities, received a letter purporting to be written by Fred Harrison, general manager of the London and Northwestern Railway of England, in which it was stated that he was coming here on a trip, and asking for courtesies and promising to reciprocate. A postscript asked that the passes be sent to the Astor House, New York.

The result was that over 100 of the requests were honored so that when on June 15 the "Solicitor General" reached the Astor House he found the batch of letters, each inclosing a pass. It is estimated that transportations for not less than 50,000 miles was obtained. Most of the passes soon found their way into the hands of the scalpers. The scheme is believed to have been worth \$5,000 to the swindler. \$5,000 to the swindler.

Two Miners Fight With Pistols-One Thrice Wounded.

REPUBLIC SPECIAL.

Denver, Colo., July 31.—At Brookside, a mining camp, i50 miles southwest of here, a duel was fought last night 2.0.0 feet under ground by two miners, one of whom is seriously wounded. Night Foreman Charles O'Neili was at work in an entry of the coal mine when he saw approaching him a machine runner named John Dilion, who held a grudge against him.

Dilion had been drinking, but displayed cautiousness by holding his lamp behind his back as he advanced. Before O'Neil could devise his visitor's intentions, a builet struck him in the chin and passed through his neck and shoulder. By the time the clouds of smoke had drifted away O'Neill had secured his revolver, and Dillon, throwing caution to the winds, placed his lamp in a niche and prepared to resume the duel. O'Neill's shot was ineffective, but Dillon placed two bullets effectively, one through his wrist.

The lamps flickered and the smoke was so

The lamps flickered and the smoke was so dense that further accurate shooting was so dense that further accurate shooting was zoul of the question. O'Neill, blinded by the smoke and crazed with pain, groped in the tunnel for his adversary, and succeeded in clinching, while he strove to secure Dillon's revolver. Though wounded, he succeeded, and Dillon hastily sought one of the cages and ascended to the surface. He is still at large.

A Plutocratic Bootblack.

The most prosperous bootblack in New York has long since given up any active share in the work that made him a wealthy man, but he began in the customary way, and worked for some years before the tide of fortune set so strongly in his favor that he became the owner of a racing stable. He is an Italian, who conducts half a dozen establishments in various parts of the city, but direct supervision of them has recently been handed over to a superintendent, and the visits of the boss in these days are rare. His earnings last week on one race won by a horse from his stable were \$40,000, and, as it would take a good many shines to make up that A Plutocratic Bootblack. his stable were \$40,000, and, as it would take a good many shines to make up that amount, his greater interest in the racing stable may easily be understood. A year ago the school principals of Stockholm, Sweden, were instructed to encourage the gathering of pupils in the public parks after school hours for the purpose of playing outdoor games, and several of the larger boys in each school were officially selected to lead the games. The innovation proved popular, and many boys who formerly were in the habit of spending their late afternoons smoking cigarettes and learning bad habits on the street corners may now be seen each evening playing baseball, football and other athletic games. The Board of Education of Stockholm thinks so well of the experiment that it has recently appointed three men teachers to the places of superintendents of outdoor exercise. It will hereafter be their duty to get together all pupils who are willing at the close of school and lead them to the parks, where, under the auspices of the board, games will be provided daily during the season from 4 to 8 p. m.
